

NiTech Solutions appoints CEO

Dr Will Davies has been appointed as CEO of NiTech Solutions with effect from 9 April 2018.

Will has 30 years' experience in the chemical and oil & gas industries, where he has held a variety of executive roles, focusing on the development and commercialisation of new technologies within large organisations and start-ups.

He looks forward to bringing this extensive experience to NiTech Solutions as the company embarks on its next chapter of growth.

Please contact us to arrange an appointment with Will during AICHEM 2018 in Frankfurt, Germany, on 11-15 June, where he will be meeting both current and prospective customers at NiTech Solutions' stand A38, Hall 9.2.

NiTech Solutions scales up business with new investment

NiTech is pleased to announce that the Oxford Technology & Innovations EIS Fund (OTIF) has become a shareholder in the company.

NiTech Chairman, Paul Hodges, welcomed OTIF as a new investor. "OTIF is a specialist partnership focused on investing in spinout companies from world-leading universities in the UK. Their investment will enable us to further leverage the strength of NiTech's ground-breaking technology. In particular, it enables us to appoint Will Davies as a full-time CEO, and to further build out the team with dedicated business development and technical support staff."
