All roads lead to continuous processing

This article in Genetic Engineering & Biotechnology News previews some of the presentations at the Continuous Processing in Biopharm Manufacturing event, which took place on 12-13 August in Boston, Massachusetts/ USA. It argues that the "ideal destination" towards continuous processing lacks a common approach.

EVENTS

Flow Chemistry India 2019

12-13 September 2019 Mumbai, India

This Flow Chemistry Society [conference](#) aims to deliver the latest knowledge on flow chemistry and how it can be integrated into everyday practice. Running alongside the conference will be an exhibition covering the latest technological advances in flow chemistry.

Contd/....

Flow Chemistry Congress

12-13 November 2019, Miami, Florida, USA

This Flow Chemistry Society [conference](#) will discuss topics such as chemical synthesis in flow, including emerging techniques and preparation of polymers for materials science and medicinal chemistry. Running alongside the conference will be an exhibition covering the latest technological advances in flow chemistry.

Flow Chemistry – Continuous Flow Reactor Technology Session

22-23 October 2019 Glasgow, Scotland

NiTech's founder Professor Xiong-Wei Ni will be presenting at the [CFRT](#) event, and CEO Will Davies and Business Development Director George Butcher will also be attending. If you would like to meet one of the team and learn more about how NiTech's continuous processing solutions could help your organisation, please contact George at george.butcher@nitechsolutions.co.uk
